Chairman's letter

9 October 2024

Dear Shareholder

I am pleased to offer you the opportunity to participate in the Company's recently announced 1 for 6.16 pro-rata accelerated non-renounceable entitlement offer of new fully paid ordinary shares in the Company ("**New Shares**") at an offer price of \$0.12 ("**Offer Price**") per New Share (the "**Entitlement Offer**").

The Offer Price of \$0.12 per New Share represents a 23.2% discount to the Theoretical Ex-Rights Price ("**TERP**")¹ of \$0.156.

Entitlement Offer and Use of Proceeds

On 2 October 2024, the Company announced its intention to raise approximately \$10.4 million via the Entitlement Offer. In addition, the Company announced that it intended to raise approximately \$9.6 million via an institutional placement to sophisticated and professional investors.

The net proceeds received from the Entitlement Offer and institutional placement are expected to be used:

- to satisfy the Company's 50% share of the \$20 million subordinated debt facility (being \$10 million), which was announced to the ASX together with the Entitlement Offer;
- to meet general working capital requirements of the Company; and
- to cover the fees associated with the Entitlement Offer.

As announced to ASX on 4 October 2024, the Company has now raised approximately \$16.5 million from the Company's Eligible Institutional Shareholders ("**Institutional Entitlement Offer**") and via the placement. The New Shares issued under the Institutional Entitlement Offer are expected to commence trading on 11 October 2024.

Attached to this letter is the Retail Offer Booklet ("**Retail Offer Booklet**") relating to the retail component of the Entitlement Offer ("**Retail Entitlement Offer**"). The Retail Entitlement Offer is expected to raise \$3.5 million.

Retail Entitlement Offer

Under the Retail Entitlement Offer, Eligible Retail Shareholders have the opportunity to invest at the same price as the institutional investors who participated in the Institutional Entitlement Offer. Eligible Retail Shareholders can subscribe for 1 New Share for every 6.16 Existing Shares they hold as at 7.00pm (Sydney time) on 4 October 2024 ("**Record Date**"). The number of New Shares for which you are entitled to subscribe under the Retail Entitlement Offer ("**Entitlement**") is set out in your personalised Entitlement and Acceptance Form that can be accessed via <https://events.miraqle.com/agc-anreo>. Eligible Retail Shareholders who have elected to receive hard copies of shareholder communications will receive their personalised Entitlement and Acceptance Form via post.

If you take up your full Entitlement, you may also apply for additional New Shares up to a maximum of 25% in excess of your Entitlement, at the Offer Price ("**Top Up Facility**"). Additional New Shares will only be available where there is a shortfall between Applications received from Eligible Retail Shareholders and the number of New Shares proposed to be issued under the Retail Entitlement Offer. The Company retains the flexibility to scale back Applications for additional New Shares at its discretion (refer to Section 3.3 of this Retail Offer Booklet for more information).

The Entitlement Offer is non-renounceable and therefore your Entitlements will not be tradeable on the ASX or otherwise transferable. This means that Eligible Retail Shareholders who do not take up their full

¹ The Theoretical Ex Rights Price is the theoretical price at which the Company shares should trade immediately following the ex date for the Entitlement Offer. TERP is calculated by reference to the Company's closing price of A\$0.156 on Tuesday 1 October 2024, being the last trading day prior to the announcement of the Entitlement Offer. TERP is a theoretical calculation only and the actual price at which the Company shares trade immediately after the ex date of the Entitlement Offer will depend on many factors and may not be equal to TERP.

Entitlement will not receive any payment or value for those Entitlements and their percentage holding in the Company will be reduced. I encourage you to consider this offer carefully.

2 Overview of the Entitlement Offer

2.1 Important information

You should read the following carefully and in their entirety before making a decision about your Entitlement:

- Important Notices;
- Chairman's letter;
- the Investor Presentation³ (and in particular the 'Key risks' section of the Investor Presentation);
- Additional Information;
- Entitlement and Acceptance Form (that can be accessed via <https://events.miraqle.com/aqc-anreo>); and
- other information made publicly available by the Company.

2.2 Overview

The Company intends to raise \$10.4 million under the Entitlement Offer.

The net proceeds received from the Entitlement Offer and institutional placement are expected to be used:

- to satisfy the Company's 50% share of the \$20 million subordinated debt facility (being \$10 million), which was announced to the ASX together with the Entitlement Offer;
- to meet general working capital requirements of the Company; and
- to cover the fees associated with the Entitlement Offer.

The Entitlement Offer is an offer of approximately 86.6 million New Shares at \$0.12 per New Share.

The Entitlement Offer has two components:

- (a) the Institutional Entitlement Offer – Eligible Institutional Shareholders were given the opportunity to take up all or part of their Entitlement, and a bookbuild process to sell Entitlements not taken up by Eligible Institutional Shareholders as well as Entitlements of Ineligible Institutional Shareholders at the Offer Price was carried out. The Institutional Entitlement Offer raised approximately \$6.9 million⁴; and
- (b) the Retail Entitlement Offer – Eligible Retail Shareholders will be allotted Entitlements under the Retail Entitlement Offer which can be taken up in whole or in part. In addition, Eligible Retail Shareholders who take up their full Entitlement may also participate in the Top Up Facility by applying for additional New Shares in excess of their Entitlement, at the Offer Price. The Retail Entitlement Offer, including any New Shares issued pursuant to the Top Up Facility, is expected to raise \$3.5 million.

³ The enclosed Investor Presentation is current as at 2 October 2024. There may be other announcements that have been, or may be, made by the Company after 2 October 2024 and, before the Retail Entitlement Offer closes at 5.00pm (Sydney time) on 24 October 2024 that may be relevant in your consideration of whether to take part in the Retail Entitlement Offer. Therefore, it is prudent that you check whether any further announcements have been made by the Company before submitting an Application.

⁴ This amount is current as at 4 October 2024 and is subject to final reconciliations being determined under the Institutional Entitlement Offer.

Both the Institutional Entitlement Offer and the Retail Entitlement Offer are non-renounceable.

New Shares issued under the Retail Entitlement Offer are to be issued at the same price as New Shares issued under the Institutional Entitlement Offer. In addition, Shareholders' Entitlements under the Institutional Entitlement Offer and the Retail Entitlement Offer are calculated based on the same ratio.

2.3 Retail Entitlement Offer

The Retail Entitlement Offer is being made pursuant to section 708AA of the Corporations Act (as modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84 and ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73) which allows rights issues to be offered without a prospectus, provided certain conditions are satisfied.

As a result, this offer is not being made under a prospectus and it is important for Eligible Retail Shareholders to read and understand the information on the Company and the Retail Entitlement Offer made publicly available, prior to taking up all or part of their Entitlement. In particular, please refer to the materials enclosed in Section 4, the Company's interim and annual reports, other announcements made available at www.asx.com.au and all other parts of this Retail Offer Booklet carefully before making any decisions in relation to your Entitlement.

The Retail Entitlement Offer constitutes an offer to Eligible Retail Shareholders, who are invited to apply for 1 New Share for every 6.16 Existing Shares held on the Record Date at an Offer Price of A\$0.12 per New Share.

The Entitlement Offer is non-renounceable. Accordingly, Entitlements do not trade on the ASX, nor can they be sold, transferred or otherwise disposed of.

The Retail Entitlement Offer opens on 9 October 2024 and is expected to close at 5.00pm (Sydney time) on 24 October 2024.

2.4 Eligibility of Retail Shareholders

The Retail Entitlement Offer is being offered to all Eligible Retail Shareholders only.

Eligible Retail Shareholders are Shareholders on the Record Date who:

- (a) are registered as a holder of existing the Company shares;
- (b) have a registered address in Australia or New Zealand or are a Shareholder that the Company has otherwise determined is eligible to participate;
- (c) are not in the United States and are not a person (including nominees or custodians) acting for the account or benefit of a person in the United States (to the extent such shareholders hold shares in the Company for the account or benefit of such persons in the United States);
- (d) the Company determines in its absolute discretion were not invited to participate in the Institutional Entitlement Offer and were not treated as an Ineligible Institutional Shareholder under the Institutional Entitlement Offer; and
- (e) are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

Ineligible Retail Shareholders are Shareholders who are not Eligible Retail Shareholders, Eligible Institutional Shareholders, or Ineligible Institutional Shareholders.

The Company has determined that it is unreasonable to extend the Retail Entitlement Offer to Ineligible Retail Shareholders because of the small number of such Shareholders, the number and value of Shares that they hold and the cost of complying with the applicable regulations in jurisdictions outside Australia and New Zealand, but reserves its right to do so (subject to compliance with relevant laws).

3 How to apply

3.1 Your Entitlement

An Entitlement and Acceptance Form setting out your Entitlement (calculated as 1 New Share for every 6.16 Existing Shares held on the Record Date with fractional Entitlements rounded up to the nearest whole number of New Shares) can be accessed via <https://events.miracle.com/aqc-anreo>. Eligible Retail Shareholders who have elected to receive hard copies of shareholder communications will receive their personalised Entitlement and Acceptance Form via post.

Eligible Retail Shareholders may subscribe for all or part of their Entitlement. If you have more than one registered holding of Shares, you will have access to more than one personalised Entitlement and Acceptance Form and you will have separate Entitlements for each separate holding.

Any New Shares not taken up by the Closing Date may be made available to those Eligible Retail Shareholders who took up their full Entitlement and applied for additional New Shares under the Top Up Facility. There is no guarantee that such Shareholders will receive the number of New Shares applied for under the Top Up Facility, or any Shares under the Top Up Facility at all. New Shares under the Top Up Facility will only be allocated to Eligible Retail Shareholders if available and then only if and to the extent that the Company so determines, in its absolute discretion.

Please note that the Entitlement stated on your Entitlement and Acceptance Form may be in excess of the actual Entitlement you may be permitted to take up where, for example, you are holding Shares on behalf of a person in the United States (refer to the definition of Eligible Retail Shareholders in Section 2.4 of this Retail Offer Booklet). Eligible Retail Shareholders who hold Shares in the capacity of a nominee, trustee or custodian (or in any other capacity) for a person that is in the United States, or who are otherwise acting for the account or benefit of a person in the United States, cannot take up Entitlements or purchase New Shares on behalf of that person.

Eligible Retail Shareholders should be aware that an investment in the Company involves risks. The key risks identified by the Company are set out in the section entitled "Key risks" from page 28 of the Investor Presentation (enclosed in Section 4).

3.2 Options available to you

The number of New Shares to which Eligible Retail Shareholders are entitled is shown on the Entitlement and Acceptance Form. Eligible Retail Shareholders may:

- (a) Option 1: take up all of their Entitlement in full and, if they do so, they may apply for additional New Shares under the Top Up Facility (refer to Section 3.3);
- (b) Option 2: take up part of the Entitlement, in which case the balance of the Entitlement would lapse (refer to section to 3.4); or
- (c) Option 3: allow their Entitlement to lapse (refer to Section 3.5).

Ineligible Retail Shareholders may not participate in the Retail Entitlement Offer.

You can apply for the New Shares via the offer website: <https://events.miracle.com/aqc-anreo>.

The Company reserves the right to reject any Entitlement and Acceptance Form that is not correctly completed or that is received after the Closing Date.

The Closing Date for acceptance of the Retail Entitlement Offer is **5.00pm (Sydney time) on 24 October 2024** (however, that date may be varied by the Company and the Lead Manager, in accordance with the Listing Rules).

3.3 Option 1: Taking up all of your Entitlement or taking up all of your Entitlement and participating in the Top Up Facility

If you wish to take up all or part of your Entitlement, payment must be made by following the instructions set out on the personalised Entitlement and Acceptance Form. Payment is due by no later than 5.00pm (Sydney time) on 24 October 2024.

If you apply to take up all of your Entitlement, you may also apply for additional New Shares under the Top Up Facility. Any amounts received by the Company in excess of the Offer Price multiplied by your full Entitlement may be treated as an Application to apply for as many additional New Shares under the Top Up Facility as your Application Monies will pay for in full.

If you choose to apply for additional New Shares under the Top Up Facility and if your Application is successful (in whole or in part), your New Shares will be issued to you at the same time that other New Shares are issued under the Retail Entitlement Offer. Additional New Shares under the Top Up Facility will only be allocated to Eligible Retail Shareholders if available. If you apply for additional New Shares, there is no guarantee that you will be allocated any additional New Shares.

3.4 Option 2: Taking up part of your Entitlement and allowing the balance to lapse

If you wish to take up part of your Entitlement, payment must be made by following the instructions set out on the personalised Entitlement and Acceptance Form. If the Company receives an amount that is less than the Offer Price multiplied by your Entitlement, your payment may be treated as an Application for as many New Shares as your Application Monies will pay for in full.

If you only take up part of your Entitlement, you will not be eligible to participate in the Top Up Facility.

3.5 Option 3: Allowing your Entitlement to lapse

If you do not wish to accept all or any part of your Entitlement, do not take any further action and that part of your Entitlement will lapse.

3.6 Consequences of not accepting all or part of your Entitlement

If you do not accept all or part of your Entitlement in accordance with the instructions set out above, those New Shares for which you would have otherwise been entitled under the Retail Entitlement Offer (including New Shares that relate to the portion of your Entitlement that has not been accepted) may be acquired by Eligible Retail Shareholders under the Top Up Facility.

By allowing your Entitlement to lapse, you will forgo any exposure to increases or decreases in the value of the New Shares had you taken up your Entitlement and you will not receive any value for your Entitlement. Your interest in the Company will also be further diluted as a result of the Entitlement Offer.

3.7 Payment and refunds

Payment should be made using BPAY® if possible. All payments must be in Australian dollars (A\$). New Zealand Shareholders who do not have an Australian bank account will be able to pay by Electronic Funds Transfer (EFT) (refer to Section 3.9).

Cash payments will not be accepted. Receipts for payment will not be issued.

The Company will treat you as applying for as many New Shares as your payment will pay for in full up to your Entitlement.

Any Application Monies received for more than your final allocation of New Shares or any scale back in respect of New Shares applied for under the Top Up Facility will be refunded.

Refund amounts, if any, will be paid in Australian dollars (A\$). You will be paid either by direct credit to the nominated bank account as noted on the share register as at the Closing Date or by cheque sent by ordinary post to your address as recorded on the share register (the registered address of the first-named in the case of joint holders). If you wish to advise or change your banking instructions with the Share Registry you may do so by going to www.linkmarketservices.com and logging into the Investor Centre.

No interest will be paid to Applicants on any Application Monies received or refunded.

If you are unable to pay by BPAY® please call the Offer Information Line on 1300 794 935 (within Australia) or +61 1300 794 935 (outside Australia) between 8.30am and 5.30pm (Sydney time) Monday to Friday during the Retail Entitlement Offer Period and refer below to Section 3.9.

3.8 Payment by BPAY®

For payment by BPAY®, please follow the instructions on the personalised Entitlement and Acceptance Form. You can only make payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions.

If you are paying by BPAY®, please make sure you use the specific Biller Code and your unique Customer Reference Number (CRN) on your personalised Entitlement and Acceptance Form. If you have multiple holdings and consequently receive more than one personalised Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings only use the CRN specific to that holding. If you do not use the correct CRN specific to that holding your Application will not be recognised as valid.

Please note that by paying by BPAY®:

- (a) you do not need to submit your personalised Entitlement and Acceptance Form but are taken to make the declarations, representations and warranties on that Entitlement and Acceptance Form and in Section 3.10; and
- (b) if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your Application Monies.

It is your responsibility to ensure that your BPAY® payment is received by the Share Registry by no later than 5.00pm (Sydney time) on 24 October 2024. You should be aware that your financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration in the timing of when you make payment.

3.9 If you are unable to pay by BPAY®

The Company encourages payments by BPAY® if possible.

If you are a New Zealand Shareholder who is completing a payment by EFT, you should complete your personalised Entitlement and Acceptance Form in accordance with the instructions

on the form and return it accompanied by an EFT payment in Australian currency for the amount of the Application Monies, payable to 'Australian Pacific Coal Retail Offer'.

It is your responsibility to ensure that your payment by EFT is received by the Share Registry by no later than 5.00pm (Sydney time) on 24 October 2024.

Your EFT payment must be:

- a) for an amount equal to \$0.12 multiplied by the number of New Shares that you are applying for; and
- b) in Australian currency drawn on an Australian branch of a financial institution. Payment cannot be made in New Zealand dollars. New Zealand resident Shareholders must arrange for payment to be made in Australian dollars.

If you make payment by EFT, you must return your completed personalised Entitlement and Acceptance Form to the Share Registry via contacting the Share Registry at capitalmarkets@linkmarketservices.com.au. It is your responsibility to ensure that your payment via EFT and your completed personalised Entitlement and Acceptance Form are received by the Share Registry by no later than 5.00pm (AEDT) on 24 October 2024 (being the Closing Date). Further details are set out on your personalised Entitlement and Acceptance Form.

You should ensure that sufficient funds are held in relevant account(s) to cover the Application Monies as your EFT will be processed on the day of receipt. You must use your HIN/SRN as the reference/description of your payment otherwise your payment will not be accepted.

3.10 Entitlement and Acceptance Form is binding

A payment made through BPAY® or a completed and lodged Entitlement and Acceptance Form together with the payment of requisite Application Monies constitutes a binding offer to acquire New Shares on the terms and conditions set out in this Retail Offer Booklet and, once lodged or paid, cannot be withdrawn. If the Entitlement and Acceptance Form is not completed correctly it may still be treated as a valid Application for New Shares. The Company's decision whether to treat an Application as valid or whether to reject it from being invalid is final.

By making a payment by BPAY® or by completing and returning your personalised Entitlement and Acceptance Form with the requisite Application Monies, you will also be deemed to have acknowledged, represented and warranted on behalf of each person on whose account you are acting that:

- (a) you have read and understand this Retail Offer Booklet and your personalised Entitlement and Acceptance Form in their entirety;
- (b) you agree to be bound by the terms of the Retail Entitlement Offer, the provisions of this Retail Offer Booklet, and the Company's constitution;

- (f) once the Company receives your personalised Entitlement and Acceptance Form or any payment of Application Monies via BPAY®, you may not withdraw your Application or funds provided except as allowed by law;
- (g) you agree to apply for and be issued up to the number of New Shares specified in the personalised Entitlement and Acceptance Form, or for which you have submitted payment of any Application Monies via BPAY®, at the Offer Price per New Share;

- (h) you authorise the Company, the Lead Manager, the Share Registry and their respective officers or agents to do anything on your behalf reasonably necessary for New Shares to be issued to you, including to act on instructions of the Share Registry upon using the contact details set out in your personalised Entitlement and Acceptance Form;
- (i) you acknowledge and agree that:
 - (i) determination of eligibility of investors for the purposes of the institutional or retail components of the Entitlement Offer is determined by reference to a number of matters, including legal and regulatory requirements, logistical and registry constraints and the discretion of the Company and/or the Lead Manager;
 - (ii) to the maximum extent permitted by law and except in the case of its fraud, gross negligence or wilful misconduct (or that of its employees, officers, agents or contractors), each of the Company and the Lead Manager, and each of their respective affiliates, disclaim any duty or liability in respect of that determination and the exercise or otherwise of that discretion;
- (j) you represent and warrant (for the benefit of the Company, the Lead Manager and each of their respective related bodies corporate and affiliates) that you did not receive an invitation to participate in the Institutional Entitlement Offer either directly or through a nominee, are not an Ineligible Institutional Shareholder under the Institutional Entitlement Offer and are otherwise eligible to participate in the Retail Entitlement Offer;

- (n) you have read the statement of risks in the "Key risks" section of the Investor Presentation included in Section 4 of this Retail Offer Booklet, and acknowledge that investments in the Company are subject to risk;
- (o) none of the Company, the Lead Manager, or their respective related bodies corporate and affiliates and their respective directors, officers, partners, employees, representatives, agents, consultants or advisers, guarantees the performance of the Company, nor do they guarantee the repayment of capital;
- (p) you agree to provide (and direct your nominee or custodian to provide) any reasonably requested substantiation of your eligibility to participate in the Retail Entitlement Offer and of your holding of Shares on the Record Date;

- (r) you acknowledge that if you are accessing your personalised Entitlement and Acceptance Form and the Retail Offer Booklet on an internet website, you are responsible for protecting against viruses and other destructive items which might compromise confidentiality and your details and that your use of the online Retail Offer Booklet or the Entitlement Offer website at <https://events.miraqle.com/aqc-anreo> is at your own risk and it is your responsibility to take precautions to ensure that it is free from viruses, items of a destructive nature or items which might compromise confidentiality;

- (t) to the best of your knowledge, having made due enquiries, you are eligible under applicable securities laws to exercise Entitlements and acquire New Shares under the Retail Entitlement Offer;
- (u) you are an Eligible Retail Shareholder and are not in the United States and are not a person (including nominees or custodians) acting for the account or benefit of a person in the United States and are not otherwise a person to whom it would be illegal to make an offer or issue New Shares under the Retail Entitlement Offer;

- (w) if you are acting as a nominee, trustee or custodian:
 - (i) the Company is not required to determine whether or not any registered Shareholder is acting as a nominee, trustee or custodian or the identity or residence of any beneficial owners of the Shares;
 - (ii) where any holder is acting as a nominee, trustee or custodian for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Retail Entitlement Offer is compatible with applicable foreign laws and that this is not the responsibility of the Company;
 - (iii) each beneficial holder on whose behalf you are submitting the Entitlement and Acceptance Form is resident in Australia or New Zealand and is not in the United States, and you are not acting for the account or benefit of a person in the United States (to the extent you hold Shares for the account or benefit of a person in the United States), or any other country except as the Company may otherwise permit in compliance with applicable law; and

- (y) if in the future you decide to sell or otherwise transfer any New Shares, you will only do so in "regular way" transactions on the ASX where neither you nor any person acting on your behalf knows, or has reason to know, that the sale has been pre-arranged with, or that the purchaser is, a person in the United States; and
- (z) you have not and will not send any materials relating to the Retail Entitlement Offer to any person in the United States or to any person (including nominees or custodians) acting for the account or benefit of a person in the United States.

3.11 Brokerage and stamp duty

No brokerage fee is payable by Eligible Retail Shareholders who accept their Entitlement. No stamp duty is payable for subscribing for New Shares under the Retail Entitlement Offer or for additional New Shares under the Top Up Facility.

3.12 Notice to nominees and custodians

The Retail Entitlement Offer is being made to all Eligible Retail Shareholders. Nominees with registered addresses in the eligible jurisdictions, irrespective of whether they participate under the Institutional Entitlement Offer, may also be able to participate in the Retail Entitlement Offer in respect of some or all of the beneficiaries on whose behalf they hold Existing Shares, provided that the applicable beneficiary would satisfy the criteria for an Eligible Retail Shareholder.

Nominees and custodians who hold Shares as nominees or custodians will have received, or will shortly receive, a letter from the Company. Nominees and custodians should consider carefully the contents of that letter and note in particular that the Retail Entitlement Offer is not available to:

- (a) beneficiaries on whose behalf they hold Existing Shares who would not satisfy the criteria for an Eligible Retail Shareholder;
- (b) Eligible Institutional Shareholders who received an offer to participate in the Institutional Entitlement Offer (whether they accepted their Entitlement or not);
- (c) Ineligible Institutional Shareholders who were ineligible to participate in the Institutional Entitlement Offer; or
- (d) Shareholders who are not eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

In particular, persons acting as nominees for other persons may not take up Entitlements on behalf of, or send any documents relating to the Retail Entitlement Offer to, any person in the United States.

The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of Shares. Where any holder is acting as a nominee for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Retail Entitlement Offer is compatible with applicable foreign laws. The Company is not able to advise on foreign laws.

3.13 Withdrawal of the Entitlement Offer

Subject to applicable law, the Company reserves the right to withdraw the Entitlement Offer at any time before the issue of New Shares, in which case the Company will refund any Application Monies already received in accordance with the Corporations Act and will do so without interest being payable to Applicants.

To the fullest extent permitted by law, you agree that any Application Monies paid by you to the Company will not entitle you to receive any interest and that any interest earned in respect of Application Monies will belong to the Company.

DISCLAIMER

Determination of eligibility of investors for the purposes of all or any part of the institutional component of the entitlement offer and placement is determined by reference to a number of matters, including legal requirements and the discretion of AQC and the Lead Manager. To the maximum extent permitted by law, AQC, the Lead Manager and its Lead Manager Parties expressly disclaim any duty or liability (including for negligence) in respect of the exercise of that discretion or otherwise. Any participant in the

placement acknowledges that allocations under the placement are at the sole discretion of the Lead Manager and AQC. To the maximum extent permitted by law, the Lead Manager and AQC disclaim any duty or liability (including for negligence) in respect of the exercise of that discretion. Furthermore, AQC reserves the right to vary the timetable for the Equity Raising (with the consent of the Lead Manager) including by closing the bookbuild early or extending the bookbuild closing time (generally or for particular investors), without recourse to them or notice to any participant in the Equity Raising. Moreover, communications that the Equity Raising or bookbuild is "covered" (i.e. aggregate demand indications exceed the amount of the New Shares) are not an assurance that the Equity Raising will be fully distributed.

JORC RESOURCE AND RESERVE STATEMENTS

In this presentation, references to ore reserves and mineral resources ('Reserves and Resources') are compliant with Chapter 5 of the ASX Listing rules and the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves 2012 ('JORC Code') and are measured in accordance with the JORC Code. Refer to slide 25 for further information.

Resource information is reported as inclusive of Resources that have been converted into Reserves (i.e. Resources are not additional to Reserves). In addition, you should not assume that quantities reported as "resources" will be converted to reserves under the JORC Code or that AQC will be able to legally and economically extract them. Estimates of coal reserves, resources, recoveries and operating costs are largely dependent on the interpretation of geological data obtained from drill holes and other sampling techniques, actual production experience and feasibility studies which derive estimates of operating costs based on anticipated tonnage, expected recovery rates, equipment operating costs, prevailing market prices and other factors, which are all subject to uncertainties. No assurance can be given that the Reserves and Resources presented in this presentation will be recovered at the quality or yield presented Resources and Reserves are estimations, not precise calculations. This presentation also involves rounded tonnes and grade information and computational differences may be present in the totals. Assumptions in relation to commodity prices, exchange rates and operating costs impact on Reserve estimation and the estimates of Reserves may include areas where additional approvals are required.

NON-IFRS FINANCIAL INFORMATION

You should be aware that certain financial measures included in this presentation are "non-IFRS financial information" under ASIC Regulatory Guide 230: "Disclosing non-IFRS financial information" published by ASIC and are not recognised under the Australian Accounting Standards ('AAS'). AQC believes the non-IFRS financial information provide useful information to users in measuring the financial performance and condition of the AQC group. However, you should note that the non-IFRS financial information do not have standardised meanings prescribed by AAS or IFRS. Therefore, the non-IFRS financial information are not measures of financial performance, liquidity or value under the IFRS and may not be comparable to similarly titled measures presented by other entities, nor should the information be construed as an alternative to other financial measures determined in accordance with AAS. You are cautioned, therefore, not to place undue reliance on any non-IFRS financial information included in this presentation.

Section 1. Dartbrook Overview

4 **DARTBROOK MINE**

Dartbrook – Revival of a quality coal asset

- **Acquisition of Dartbrook Underground Mine:** Acquired in May 2017 by Australian Pacific Coal (from Anglo American)
- **Commercial Production Imminent:** Re-start program to fully remediate underground operations substantially complete with coal successfully produced to surface
- **Prime Location:** Situated in Hunter Valley, approximately 100 km from Newcastle export terminals, with excellent access to productive seams and high-quality coal
- **Comprehensive Infrastructure in Place:** Includes the Hunter Tunnel, rail loop and CHPP with up to 6 Mtpa ROM nameplate capacity, leveraging significant pre-investment by Shell and Anglo American
- **Potential Long-Life Asset:** Current development consent to December 2027 with potential to extend to 2033 and beyond with minimal capex

Investment Highlights

AQC has an 80% JV interest (70% economic interest¹) in the Dartbrook coal project, offering ASX exposure to a successfully recommissioned, fully funded production asset in Australia's Hunter Valley

New supply of low cost, export quality coal

Substantially de-risked – Coal successfully produced to surface

Fully Funded – Restart capex and working capital²

High margin potential – material free cash flow generation

Fully permitted with MOD8 extension potential³

World class infrastructure in place and well maintained⁴

High quality (NEWC spec) thermal coal with met coal potential

Proximity to world class port and rail infrastructure

Committed to Safety, the Community, and the Environment

1. AQC has provided a 10% indirect economic interest to M-Resources, effectively reducing AQC's net economic interest in the project to 70%.
2. Initial US\$60m senior secured restart capex facility in-place. Executed Loan Note Subscription Agreements to upsize senior facility to a US\$90m facility to include working capital, and a further back-stop A\$20m subordinated facility to be provided to Dartbrook by Vitol and AQC as lenders (on 50/50 basis), contingent on AQC providing A\$10m of the subordinated facility. See Slides 26, 27.
3. Preparations for MOD8 development extension to 2033 are underway. See slide 15
4. Declared insurance value currently A\$470m

Section 2. Restart Ready

Production Ramp-up Underway

- Coal from the Kayuga seam produced to surface stockpile
- 4 km conveyor system operational
- Production ramp-up underway, targeting commercial production in Q4 CY2024
- Commissioned first Continuous Mining Unit (CMU), with second and third CMUs secured

- Phased commissioning of 4 CMUs planned within first 18 months in the Kayuga seam.
- Initial production (~3-6 months) of unwashed thermal coal (ROM bypass) while CHPP refurbished. Wet plant refurbishment targeting completion in early CY2025
- Evaluating potential to produce marketable quantities of met coal (semi-soft and/or PCI), in addition to NEWC spec thermal coal. Lab testing underway.
- Mine plan to be optimised once operations commence with potential to access additional seams

Strategically Positioned for Export Market

Dartbrook represents a rare opportunity to access Asian export markets when limited new projects are being sanctioned

- Dartbrook stepping in at the right time - limited new supply growth despite higher global prices
- Well positioned to offset decline from larger mines
- Dartbrook is not resource constrained, is fully permitted and ready to go
- High Efficiency Low Emissions (HELE) technology is perfect match for Australian thermal coal
- South-east Asia: a key market for Australian coal
- Premium coal quality provides Australia with an edge over low CV Indonesian coal

TERP is the theoretical price at which Shares should trade immediately after the ex-date for the Entitlement Offer. TERP is a theoretical calculation only and the actual price at which AQC Shares trade on ASX immediately after the ex-date for the Entitlement Offer will depend on many factors and may not be equal to TERP.

2. Executed Loan Note Subscription Agreements (Senior and Subordinated facilities) to enable Dartbrook to be fully funded through planned production ramp-up. Subordinated Facility (A\$20m consisting of A\$10m from AQC) is a back-stop which will only be drawn, if required, once the upsized Senior facility is fully drawn. See slides 26, 27

Restart, funding and production risk

The Company may be unable to access the appropriate management, equipment and capital to fund its business operations. The Dartbrook Project was placed into care and maintenance in 2007 and has not been in operation for over 15 years. This has caused a number of its assets to deteriorate. There is the risk that actual costs may be greater than the cost anticipated in this presentation due to greater than expected inflationary impacts, potential scope changes and wage cost increases.

The Company is in the process of commissioning its operations, which will be subject to the production risk for an ongoing coal mine operation. There can be no assurance that the Company will achieve its production targets or cost estimates. The Company's operations and mining productivity rates may be curtailed, or delayed as a result of factors such as adverse weather conditions, mechanical difficulties, shortages in or increases in the costs of key supplies and input including diesel, electricity, consumables, spare parts, plant and equipment, external services failure (such including energy and water supply), industrial disputes and action, difficulties in commissioning and operating plant and equipment, IT system failures, mechanical failure or plant breakdown, and compliance with governmental requirements.

Debt Funding risk

Both the uplift in the Senior Debt Facility from US\$60 million to US\$90 million, and the availability of the Subordinated Facility, are subject to a range of conditions precedent and conditions subsequent. Not all of those conditions are within the control of the Borrowers or Guarantor. Some of them depend on the co-operation and participation of third parties, and some require the Lenders (or a majority of them) to be satisfied as to certain matters. While we have no reason to believe that those conditions will not be satisfied in a timely manner, the possibility must be acknowledged that one or more of them may be delayed or even not satisfied, requiring an approach to the Lenders for an extension or waiver (and in the event an extension or waiver was not granted, could result in an event of default). The Borrowers and the Guarantor have implemented processes and procedures to minimise the risk of that occurring.

Mining risks

- (i) The orders of the Land and Environment Court of New South Wales' in AQC Dartbrook Management Pty Ltd. v Minister for Planning and Public Spaces (referred to as Modification 7 or MOD 7) impose conditions on mining at Dartbrook, including as to maximum production limits and requirements associated with re-starting, re-establishing and refurbishing the Dartbrook Mine and mining into the future.
- (ii) The Dartbrook Project tends towards a medium to high spontaneous combustion risk particularly in the old longwall areas where the risk is much higher. While the current mine plan does not anticipate mining in the old longwall areas, if mining were to recommence in these areas there would be increased risk of re-activation of dormant heating or the commencement of new

heating.

- (iii) The New South Wales Resources Regulator ('NSWRR') requires full compliance with all legislation prior to recommencement of the Dartbrook Project, including additional communication equipment, real-time environmental monitoring and full compliance with requirements to have current Principal Hazard Management Plans ('PHMPs') updated every 3 years and all supporting subordinate documentation. There is a risk that the Dartbrook Project does not meet the compliance requirements and accordingly, the NSWRR imposes a requirement for the Dartbrook Project to temporarily or permanently cease or imposes additional costs to ensure compliance or fines in the instance of noncompliance.

Joint venture risk

AQC's material asset is its 80% interest (70% economic interest) in the unincorporated joint venture for the Dartbrook underground coal mine. While AQC holds the majority interest in the Dartbrook underground coal mine, the mine manager / operator (who is affiliated with the minority joint venture partner) has significant control over its operations. The joint venture arrangement is subject to the risks associated with the conduct of joint ventures. Such risks include inability to exert sufficient influence over certain strategic decisions made in respect of Dartbrook, disagreement with joint venture partners on how to develop or operate Dartbrook, inability of joint venture partners to meet their obligations to the joint venture or third parties and litigation participants regarding joint venture matters. Areas of disagreement have included disagreements between AQC and the mine manager / operator in relation to practices in relation to engagement of contractors and adequacy of reporting and record keeping.

If any of these risks were to materialise or where a disagreement is unable to be resolved, this could potentially jeopardise the ability of the Dartbrook mine to efficiently and effectively proceed to first commercial coal. Such an impact would have a near term adverse effect on AQC's ability to commence generating revenue and/or maximise the financial benefit it draws from its material asset into the future.

Plant and Equipment risks

Prior to the Dartbrook Project recommencing commercial production and ramp up to targeted levels, there are a number of issues relating to the current infrastructure and plant and equipment that will need to be rectified, remedied, or procured to allow production to commence. Although most of the remediation works have been completed or are in progress, there remains the risk that it will not be completed in time or effectively to enable the ramp up of commercial production to targeted levels

Environmental risks

The Dartbrook Project is subject to laws and regulations regarding environmental matters. As with all mining and exploration projects, the future operations of the Dartbrook Project are expected to have an impact on the environment, and it is possible that regulatory issues could arise in relation to such operations, either under current laws and regulations or under any future laws or regulations. The Company is unable to project the effect of additional environmental laws and regulations which may be adopted in the future, including whether any such laws or regulations would materially increase the costs of doing business or of its operations in the area. There can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Dartbrook Project to incur significant expenses and undertake significant investments which could have a material adverse effect on the performance of the Dartbrook Project.

Force majeure events

Events that are beyond the direct control of the Company may occur that could impact on the economy, the Company's operations, investor sentiment and the price of shares. These events include, without limitation, acts of terrorism, international hostilities, pandemics, fires, floods, earthquakes, labour strikes, natural disasters, damage to or unavailability of infrastructure, bush fires or other natural or man-made events.

Dilution of existing shareholdings in the Company

Shareholders who do not take up their entitlements under the Entitlement Offer in full will have their percentage interest in the Company reduced. In addition, Shareholders who do not participate on at least a pro rata basis in the Placement will also have their percentage interest in the Company reduced. Shareholders will also have their shareholding diluted by the Broker Options (see slide 34), if approved by Shareholders.

The dispute with ZKR Holdings Limited (ZKR) mentioned in the following risk also has the potential to lead to dilution if options are required to be issued to ZKR.

Dispute with adviser

ZKR an advisory firm previously engaged to assist the Company obtain debt funding, has claimed it is entitled to 6,946,219 unlisted options with an exercise price of \$0.1402. In addition, ZKR has claimed that it is entitled to a cash payment of US\$1,800,000 and also a royalty of 0.5% of all coal sales. AQC disputes ZKR's entitlement to receive these options (as well as the coal royalty and quantum of the cash amount), having regard to a number of matters. There is a risk that ZKR will ultimately seek to require the Company to issue some or all of the options or provide the cash payment or royalties claimed (or monetary compensation for any of those claims not being satisfied) and may also seek to recover its costs for pursuing its claims in this regard. If ZKR pursues this course, there is a risk it could be successful, and also that, even if it is not, the Company may incur legal and other costs in defending its position and that management time may be diverted.

Shortage of skilled labour

Efficient coal mining using modern techniques and equipment requires skilled labourers, preferably with a reasonable level of experience and proficiency in multiple mining tasks. Any reduced availability or future shortage of skilled labour in Australia could result in AQC having insufficient personnel to operate its business, or commence or expand production, which could adversely affect AQC's financial condition and results of operations.

Resource and Reserve estimates

Mineral Resources and Ore Reserves are estimates only. Mineral Resources which are not Ore Reserves may not have demonstrated economic viability. These estimates are prepared in accordance with the JORC Code 2012 and are expressions of judgement based on knowledge, experience and industry practice, and may require revision based on actual production experience which could in turn affect the Company's mining plans and ultimately its financial performance and value. Estimates that are valid when made may change significantly when new information becomes available. In addition, coal price fluctuations, as well as increased production costs or reduced throughput and/or recovery rates, may render Reserves and Resources uneconomic and so may materially affect the estimates.

Interest rate risk

AQC is exposed to interest rate risk in relation to variable rate bank balances and variable rate borrowings. The interest rates applicable to AQC's borrowings may increase in the future as a result of factors beyond its control and may result in an adverse effect on its financial condition and results of operations.

Foreign exchange risks

Loss sustained from adverse movements in currency exchange rates could impact AQC's financial performance and financial position and the level of additional funding required to support its businesses. For example, the existing (and proposed refinancing of) Senior secured facility is denominated in USD, whilst most operating costs are denominated in AUD. The proposed Subordinated Facility and AQC Shareholder Loan are denominated in AUD. Export coal sales contracts will be denominated in USD and any Domestic sales may be denominated in AUD. AQC entered into an FX swap arrangement for the purposes of locking in an FX rate for the drawdowns of the existing US\$60mi Senior facility. The Company may consider undertaking foreign exchange hedging against exchange rate fluctuations going forward. AQC's USD exposures will be at risk of any adverse movement in exchange rates, which may affect AQC's operating results, cash flows and financial condition.

Management risk

Dartbrook's prospects depend, in part, on the Company's ability to attract and retain its executive officers, senior management and key consultants or partners and on these personnel being able to operate effectively.

Compliance with health and safety laws and regulations

AQC is subject to extensive laws and regulations governing health and safety at coal mines in Australia. As a result of increased stakeholder focus on health and safety issues (such as black lung disease or coal workers' pneumoconiosis), there is a risk of legislation and regulatory change that may increase AQC's exposure to claims arising out of current or former activities or result in increased compliance costs. Regulatory agencies also have the authority, following significant health and safety incidents, such as fatalities, to order a facility be temporarily or permanently closed. If serious safety incidents were to occur at any of AQC's mining facilities in the future, it is possible that a regulator might impose a range of conditions on re-opening of a facility, including requiring capital expenditures, which could have an adverse effect on AQC's reputation, financial condition and results of operations.

Water shortages

In a situation of a drought and constrained supply of water, AQC's ability to source water for the Dartbrook Project may be reduced. If this occurred, this may impact AQC's ability to maintain production levels without incurring additional costs, which could adversely impact its operations and production.

Royalties

There is currently a Royalty Deed with the previous owners Anglo American (since assigned to Taurus Mining Royalty Fund L.P) and Marubeni Coal Pty Ltd for A\$3.00/t (subject to escalation) of grantor's coal sold and an additional A\$0.25/t of third-party coal processed or loaded through Dartbrook facilities. The royalty has a cap of A\$30,000,000 (subject to escalation). The NSW Government currently imposes a 9.8% royalty on underground coal (effective 1-Jul-24). There is always a risk that the Government will review and potentially change the royalty regime, and any change could adversely impact AQC.

Increasing regulation of coal mining and related financing and other matters

Global concerns about climate change continue to attract considerable attention, particularly in relation to the coal industry. Emissions from coal consumption, both directly and indirectly, and emissions from coal mining itself are subject to pending and proposed regulation as part of initiatives to address global climate change. A number of countries, including Australia, have already introduced, or are contemplating the introduction of, regulatory responses to greenhouse gasses, including from the extraction and combustion of fossil fuels, to address the impacts of climate change. The absence of regulatory certainty, global policy inconsistencies and direct regulatory impacts (such as carbon taxes or other charges) each have the potential to adversely affect AQC's operations – either directly or indirectly, through suppliers and customers. Collectively, these initiatives and developments could result in lower demand for coal used in electricity generation (such as that which AQC will produce), reduced willingness of financiers, insurers and other suppliers to provide their services to AQC, higher electricity and other input costs to AQC's operations, new regulatory constraints or requirements applicable to AQC's operations and other adverse effects, which could in turn adversely impact AQC's business and its financial condition and results of operations.

Native title

In Australia, mineral exploration and mining tenure (and many other forms of tenure or interests in land) may cover land that is subject to a claim for native title or land where native title has already been determined to exist. Native title is the communal, group or individual rights and interests of Aboriginal or Torres Strait Islander people in relation to their traditional land or waters. The existence of native title in Australia is recognised and protected in accordance with the Native Title Act 1993 (Cth) ('Native Title Act') and legislation in each State and Territory. The common law of Australia recognises a form of native title that, in circumstances where it has not been extinguished, reflects the entitlement of the appropriate traditional owners to their lands, in accordance with their traditional law and custom.

If native title is either determined to exist or there are registered, but undetermined, native title claims over any part of its tenements and native title has not otherwise been extinguished with respect to that part, AQC may be required to negotiate with, and pay compensation to, the native title holders for impairment, loss or diminution or other effect of the proposed activities on their native title rights and interests. Compensation obligations may also arise pursuant to agreements with native title claimants or native title holders in relation to any tenements AQC acquires. The existence of native title or a registered native title claim may preclude or delay the granting of exploration and mining licences pending resolution of the statutory procedures imposed by the Native Title Act and considerable expense may be incurred in negotiating and resolving native title issues.

Changes in and compliance with government policy, regulation or legislation

The coal mining industry is subject to regulation by federal, state and local authorities in each relevant jurisdiction with respect to a range of industry specific and general matters. Any future legislation and regulatory change imposing more constraints or more stringent requirements may affect the coal mining industry and may adversely affect AQC's financial condition and results of operations. Examples of such changes are future laws or regulations that may limit the emission of greenhouse gases or the use of thermal coal in power generation, more stringent workplace health and safety laws, more rigorous environmental laws, and changes to existing taxation and royalty legislation.

Volatility of coal prices

AQC anticipates generating its primary revenue from the sale of coal. Accordingly, its financial results will be materially impacted by the prices it receives for that coal. As a result, and depending on the terms of any arrangements it enters into with buyers, a significant portion of AQC's revenue may be exposed to movements in coal prices and any weakening in coal prices is likely to have an adverse impact on its financial condition and results of operations. Future prices for coal depend upon many factors beyond AQC's control, including the current market price of coal, overall domestic and global economic conditions, the consumption patterns of industrial consumers, electricity generators and residential users, weather conditions in AQC's markets that affect the ability to produce coal or affect the demand for coal, competition from other coal suppliers, technological advances affecting energy consumption and/or the steel production process, the costs, availability and capacity of transportation infrastructure and the impact of domestic and foreign governmental policy, laws and regulations, including the imposition of tariffs, environmental and climate change regulations and other regulations affecting the coal mining industry.

Litigation risk

The Company may be subject to claims or litigation being brought against it, including with respect to corporate and capital raising activities or from service providers, including for fees alleged to be owing. There is a risk that such disputes may result in adverse consequences, including requirements for to pay the claimants and/or pay legal expenses incurred in defending such claims.

General Risks

Nature of investment

Any potential investor should be aware that subscribing for New Shares involves risks, particularly given the prospective nature of the Company, the lack of current revenues and the need to lock in certain contractual arrangements including additional funding. The New Shares to be issued pursuant to the Equity Raising carry no guarantee with respect to the payment of dividends, return on capital or the market value of those New Shares.

Economic factors

The operating and financial performance of the Company is influenced by a variety of general economic and business conditions including the levels of business confidence and investment, employment, inflation, interest rates, exchange rates, access to debt and capital markets, fiscal policy, monetary policy and regulatory policies. A prolonged deterioration in any of the above factors may have a material adverse impact on the Company's business and financial performance and in particular, they may prevent the Company from obtaining the necessary funding to progress the restart of the Dartbrook Project.

Insurance arrangements

The Company and Dartbrook Project maintains insurance within ranges of coverage the Company believes to be consistent with industry practice and having regard to the nature of activities being conducted. However, no assurance can be given that such coverage will be adequate and available to cover any claims that may be made against the Company or its directors or any losses the Company may suffer. Further, there is a risk that the Company will not be able to obtain adequate coverage in the future, either at reasonable rates or at all.

Operational risks and costs

The Company is exposed to operational risks and costs present in the current business. Operational risk has the potential to have a material adverse effect on the Company's financial performance and position as well as reputation. The Company will endeavour to take appropriate action or obtain appropriate insurance to mitigate these risks, however certain residual risk will remain with the Company.

Future capital needs

There is a risk that despite efforts from the Company and its management, re-commissioning efforts will fail, cost more than anticipated or that attempts to raise required funding will fail, all of which would adversely affect the Company's growth and profitability. There can be no assurance that additional funding will be available on satisfactory terms or at all. If insufficient capital is raised by the Equity Raising, there is a risk that AQC will no longer be able to continue to lend the Dartbrook JV and accordingly, the Dartbrook mine will need to return to care and maintenance until alternative sources of funding are raised.

Underwriting Risks

The Company has entered into an Underwriting Agreement under which the Lead Manager has agreed to fully underwrite the Entitlement Offer, subject to the terms and conditions of the Underwriting Agreement. If certain conditions are not satisfied or certain events occur, the Lead Manager may terminate the Underwriting Agreement (for further information, see the Summary of the Underwriting

Agreement). The ability of the Lead Manager to terminate the Underwriting Agreement in respect of certain events will depend on whether, in the reasonable opinion of the Lead Manager, the event has, or is likely to have, a material adverse effect on the financial position or performance, shareholders' equity, profits, losses, results, condition, operations or prospects of the Company or Company group, success or outcome of the Entitlement Offer, the ability of the Lead Manager to market, promote or effect settlement of, the Entitlement Offer, the market price of Shares on ASX, a decision of any investor to invest in Shares, or could reasonably be expected to give rise to a liability for that Lead Manager under the Corporations Act or any other applicable law.

Regulatory risk and government policy

Changes in relevant taxation, interest rates and other legal, legislative and administrative regimes and government policies in Australia, may have an adverse effect on the assets, operations and ultimately the financial performance of the Company and the market price of its securities. In particular, as noted on slide 5, the NSW royalty regime (where the Dartbrook Project is located) is more favourable than that applying in Queensland. There is a risk that the regime is amended to raise royalties further, which would cause a significant increase in operating costs and reduce profitability.

Cost and production assumptions

The Company uses a range of factors and estimates to determine its expected costs and expected production and sales, many of which are outside its control. In particular, actual operating and other costs may exceed expected costs (including as a result of wage rises, rises in the price of materials and general inflationary pressures, inability to source materials or services, including port and rail services, at the costs anticipated and other factors) and actual production and sales may be less than expected production and sales (including because of mining and operational issues, coal market conditions and other factors), and the differences could be material.

Share market conditions

The price of the Company's shares will be influenced by international and domestic factors which may cause the market price of the shares to fall and may be subject to varied and unpredictable influences on the market for equities. Shareholders should be aware that there are risks associated with any securities investment. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

Substantial shareholder risk

Trepang Services Pty Ltd and an associated shareholder ('Trepang') have significant influence over AQC, which could limit the ability of other shareholders to influence the outcome of shareholder votes. As at the date of this presentation, Trepang and Associates hold a combined 36% of AQC's ordinary shares. There is a risk that the interests of Trepang could conflict with or differ from AQC's interests or the interests of other shareholders, or that the size of the Trepang shareholding could deter proposals for control transactions.

Competition risk

The coal industry is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.

The New Shares issued under the Retail Entitlement Offer will be fully paid and rank equally with Existing Shares.

5.2 Allotment

The Company has applied for quotation of the New Shares on ASX in accordance with Listing Rule requirements. If ASX does not grant quotation of the New Shares, the Company will repay all Application Monies (without interest).

Trading of New Shares will, subject to ASX approval, occur shortly after allotment. It is expected that allotment of the New Shares under the Retail Entitlement Offer will take place on 31 October 2024. Application Monies will be held by the Company on trust for Applicants until the New Shares are allotted. No interest will be paid on Application Monies.

Subject to approval being granted, it is expected that the New Shares allotted under the Retail Entitlement Offer will commence trading on a normal basis on 1 November 2024.

It is the responsibility of Applicants to determine the number of New Shares allotted and issued to them prior to trading in the New Shares. The sale by an Applicant of New Shares prior to receiving their holding statement is at the Applicant's own risk.

5.3 Reconciliation

In any entitlement offer, investors may believe that they own more Existing Shares on the Record Date than they ultimately do. This may result in a need for reconciliation to ensure all eligible Shareholders have the opportunity to receive their full Entitlement.

The Company may need to issue a small quantity of additional New Shares to ensure all eligible Shareholders have the opportunity to receive their appropriate allocation of New Shares. The price at which these New Shares would be issued, if required, is the same as the Offer Price.

The Company also reserves the right to reduce the number of an Entitlement or New Shares allocated to eligible Shareholders or persons claiming to be eligible Shareholders, if their Entitlement claims prove to be overstated, if they or their nominees fail to provide information requested to substantiate their Entitlement claims, or if they are not eligible Shareholders.

5.4 Continuous Disclosure

The Company is a "disclosing entity" under the Corporations Act and is subject to regular reporting and disclosure obligations under the Corporations Act and the ASX Listing Rules, including the preparation of annual reports and half yearly reports.

The Company is required to notify ASX of information about specific events and matters as they arise for the purposes of ASX making that information available to the stock markets conducted by ASX. In particular, the Company has an obligation under the Listing Rules (subject to certain exceptions) to notify ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of the Company shares. That information is available to the public from ASX.

6 Australian taxation consequences

Below is a general guide to the Australian income tax, goods and services tax (**GST**) and stamp duty implications of the Retail Entitlement Offer for Eligible Retail Shareholders that hold their New Shares or additional New Shares acquired under the Top Up Facility on capital account.

The guide below applies only to Eligible Retail Shareholders who are Australian resident individuals, companies or complying superannuation entities. The guide does not apply to Eligible Retail Shareholders who:

- acquired, or were taken to have acquired, their Shares before 20 September 1985;
- are not a resident for Australian income tax purposes;
- hold their Shares as revenue assets or trading stock (which will generally be the case if you are a bank, insurance company or carry on a business of share trading); or
- acquired the Shares in respect of which the Entitlements are issued under any employee share scheme or where the New Shares are acquired pursuant to any employee share scheme.

The guide does not take account of the individual circumstances of particular Eligible Retail Shareholders and does not constitute tax advice. It does not purport to be a complete analysis of the potential tax consequences of the Retail Entitlement Offer and is intended as a general guide to the Australian tax implications. Eligible Retail Shareholders should seek advice from an appropriate professional advisor in relation to the tax implications of the Retail Entitlement Offer based on their own individual circumstances.

The comments below are based on the Australian tax law as it applies as at 9.00am (Sydney time) on 2 October 2024. Other than as expressly discussed, the comments do not take into account or anticipate changes in Australian tax law or future judicial interpretations of law after this time unless otherwise specified. The comments also do not take into account tax legislation of any country other than Australia.

6.1 Issue of Entitlement

The issue of the Entitlement will not in itself result in any amount being included in the assessable income of an Eligible Retail Shareholder.

6.2 Exercise of Entitlement and applying for additional New Shares

New Shares will be acquired where the Eligible Retail Shareholder exercises all or part of their Entitlement under the Retail Entitlement Offer. Additional New Shares will be acquired where the Eligible Retail Shareholder acquires additional New Shares under the Top Up Facility.

An Eligible Retail Shareholder will not derive any assessable income, or make any capital gain or capital loss at the time of exercising their Entitlement under the Retail Entitlement Offer or acquiring additional New Shares under the Top Up Facility.

For Australian capital gains tax (**CGT**) purposes:

- New Shares will be taken to have been acquired on the day that an Eligible Retail Shareholder exercises their Entitlement; and
- additional New Shares acquired under the Top Up Facility will be taken to have been acquired on the date the additional New Shares were issued to the Eligible Retail Shareholder.

The cost base of each New Share and additional New Share will be equal to the Offer Price payable for each New Share and additional New Share respectively (plus any non-deductible

incidental costs the Eligible Retail Shareholder incurs in acquiring the New Shares and additional New Shares).

6.3 Lapse of Entitlement

If an Eligible Retail Shareholder does not accept all or part of their Entitlement in accordance with the instructions set out in Section 3.2, then that Entitlement will lapse and the Eligible Retail Shareholder will not receive any consideration for their Entitlement that is not taken up. There should be no tax implications for an Eligible Retail Shareholder from the lapse of the Entitlement.

6.4 Taxation in respect of dividends on New Shares

Any future dividends or other distributions made in respect of New Shares will be subject to the same income taxation treatment as dividends or other distributions made on Existing Shares held in the same circumstances.

6.5 Disposal of New Shares or additional New Shares

The disposal of New Shares or additional New Shares will constitute a disposal for CGT purposes.

On disposal of a New Share or an additional New Shares, an Eligible Retail Shareholder will make a net capital gain if the capital proceeds received on disposal exceed the total cost base of the New Share or additional New Share. An Eligible Retail Shareholder will make a net capital loss if the capital proceeds are less than the total reduced cost base of the New Share or additional New Share.

Eligible Retail Shareholders that are individuals or complying superannuation entities and that have held their New Shares or additional New Shares for 12 months or more (excluding the date of acquisition and the date of disposal) at the time of disposal should be entitled to apply the applicable CGT discount factor to reduce the capital gain (after offsetting capital losses). The CGT discount factor is 50% for individuals and 33.33% for complying superannuation entities.

New Shares will be treated for the purposes of the CGT discount as having been acquired when the Eligible Retail Shareholder exercised their Entitlement or when the New Shares were issued under the Top Up Facility. Accordingly, in order to be eligible for the CGT discount, the New Shares must be held for at least 12 months after the date that the Entitlement were exercised or were issued under the Top Up Facility, as the case may be.

Eligible Retail Shareholders that make a capital loss can only use that loss to offset other capital gains from other sources i.e. the capital loss cannot be used against taxable income on revenue account. However, if the capital loss cannot be used in a particular income year it can be carried forward to use in future income years, provided certain loss utilisation tests are satisfied.

6.6 Taxation of Financial Arrangements

The application of the Taxation of Financial Arrangements (**TOFA**) provisions depends on the specific facts and circumstances of the Eligible Retail Shareholder. Eligible Retail Shareholders should seek advice from an appropriate professional advisor in relation to the implications of the TOFA provisions (if any).

6.7 GST

The taking up of the New Shares and additional New Shares will be classified as a “financial supply” for Australian GST purposes. Accordingly, Australian GST will not be payable in respect of amounts paid for the acquisition of the New Shares or additional New Shares. Subject to certain requirements, there may be a restriction on the entitlement of Eligible Retail Shareholders

to claim an input tax credit for any GST incurred on costs associated with the acquisition of New Shares or additional New Shares acquired under the Top Up Facility.

6.8 Stamp duty

Stamp duty will not be payable in respect of the taking up of New Shares or additional New Shares on the assumption that all acquisitions occur when all of the securities in the Company are quoted on the market operated by the ASX and no Shareholder (together with interests of associated persons and interests acquired under associated transactions) holds an interest of 90% or more in the Company.
